IIT Kharagpur - **Research Assistant (Summer Intern)** - Under Dr. Amit Ghosh (School of ESE) (Backend - Python) - [Certificate](#)

MAY - JULY 2018

- Reduced the runtime of a Numba script from 1.5 days to 36 minutes

PROJECTS (MORE ON [GITHUB](#)) -

HealthAssist - Dec 2022, Ayu Health's Internal Hackathon

We integrated our customer app with Google Fit and Apple HealthKit, adding an interactive dashboard and smart notifications, which redirects users to book appointments, blogs/videos, and community. I worked on HealthKit for the iOS App with ReactNative. ([Presentation on Drive](#))

LogWatcher - Jul 2022, Server-side Project

A server side log watching implementation similar to `tail -f` to monitor the given log file which is capable of fetching updates that happen in it. This runs on the same machine as the log file. It also includes functionality to fetch the last 10 lines of the log file. The server was built using Java. ([Source on GitHub](#))

HOBBIES -

Writing Hindi/English Poems, Stories, Hindi Shayaris, and Singing

EDUCATION (MORE ON [LINKEDIN](#)) -

Indian Institute of Technology (ISM), Dhanbad - **B.Tech**
